

PSM 2 EVALUATION 2: EVALUATOR

CLO1 - 20%
CLO2 - 10%
CLO3 - 5%
CLO4 - 5%

NUM	CONTENT	5	4	3	2	1	0	Weightage	Mark Given	TOTAL IN %
DOCUMENT/THESIS/POSTER										
CLO1	1. INTRODUCTION - introduction should be related to domain background, importance of the subject and current issues according to proposed topic	All elements are excellently written with proper organisation and flow	<in between>	Most elements are satisfactorily written with moderate quality of organisation and flow	<in between>	Most elements are poorly written and poorly organised	No explanation	0.4	5	2.00
CLO1	2. PROBLEM STATEMENT - explanation of problem should be related to the domain / knowledge or solution gap	Clearly stated and explained with supporting citation	<in between>	Stated with explanation without supporting citation	<in between>	Poorly stated with insufficient or irrelevant explanation	Problem not stated	0.4	5	2.00
CLO1	3. OBJECTIVE & SCOPE - Objective MUST be 3 Objectives (reflecting SMART concept) - Scope must be related to the project	All objectives are clearly stated reflecting SMART concept and aligned with problem statement with appropriately defined scope	<in between>	Objectives are stated and aligned with problem statement but not all reflecting SMART concept with fairly defined scope	<in between>	Objectives and scopes are poorly stated	No objectives	0.4	5	2.00
CLO1	4. PROJECT/RESEARCH LIFECYCLE - should describe on applied / used project management framework in the project. Project Based: SDLC (Agile,RAD etc) Research Based: Research Framework	The described lifecycle is practical and applicable to the project	<in between>	The described lifecycle is somewhat practical and applicable	<in between>	The described lifecycle is neither practical nor applicable to the project	No description	0.4	5	2.00
CLO1	5. COMPLETE AND FINALISED PROJECT REQUIREMENT - the project requirement must be complete and finalised and requires no further changes.	Clearly explained incorporating all required elements	<in between>	Satisfactorily explained but missing some elements	<in between>	Poorly explained and missing most elements	No explanation	0.4	5	2.00
CLO1	6. TESTING APPROACH/STRATEGY AND DESIGN [CRITERIA BASED ON RG] - should describe the testing strategy/approach and has completed the design of the testing (UAT, FAT, etc) appropriately	Testing approach is relevant, comprehensive and well described	<in between>	Testing approach is relevant but not comprehensive, satisfactorily described	<in between>	Insufficiently explained.	Testing approach is irrelevant and poorly described	0.6	5	3.00
CLO1	7. RESULT & DISCUSSION - critically explain the result. - able to present the relevant result from the proposed work (Example: table, graph, UAT elements etc.). - able to identify the strength, weakness and challenges during the development of the solution. - able to suggest appropriate future improvement	Thorough and comprehensive critical analysis and discussion of the result	<in between>	Adequate analysis and discussion of the result	<in between>	Result is poorly discussed	No result and discussion	0.8	5	4.00
CLO1	8. REFERENCE -Minimum 10 references related to the project must be stated. - Must follow the proposal format	All references provided are related to the content and correctly formatted	<in between>	Some references are not related to the content but mostly in correct format	<in between>	All references are not related to the content	No references	0.2	5	1.00
